

Privacy Policy for EroLabAI

Effective Date: February 9, 2026

1. Introduction

EroLabAI (the “App”) respects your privacy. This Privacy Policy explains what data is processed, how it is used, and what your rights are when using the App.

2. Data Collection

The App does **not collect or store personal data** on any external servers.

- The App detects first-time usage to enable limited free access. This information is stored locally on your device and is not transmitted.
- The App does not request or access any user-identifiable information such as name, email, contacts, or location.
- Users may optionally **save generated responses** locally on their device (favorites). This data remains on the device and is never uploaded.

3. AI Prompt Handling

- The App uses **OpenAI’s API** to generate responses to user prompts.
- All AI-related queries are routed through a **proxy server located in Frankfurt, Germany**.
- Depending on the selected feature, the data sent may include the **user’s text input** and/or an **optional image** (for example, a photo or a chat screenshot).
- Images are used **only once** to generate the requested result. After the request is sent, the App does not retain access to the image (no local or server-side storage by the App).
- The App does **not store or log** prompts or images on the proxy server. Requests are forwarded to the AI provider only to generate an output.
- The only purpose of sending this data is to generate the requested result. The App does not use prompts or images for advertising or profiling.
- Please avoid uploading sensitive personal data. You are responsible for the content you choose to submit.

4. In-App Purchases

The App uses **StoreKit** to handle subscriptions and purchases. Payment information is processed securely by Apple. The App does not access or store payment details.

5. Analytics and Crash Reporting

The App uses **Firebase Crashlytics** and **Firebase Analytics** to collect anonymous crash and usage statistics.

This information helps improve stability, performance, and feature prioritization. No personally identifiable information is collected.

6. Age Restrictions

The App is intended for users aged **17 and older**. Some content categories may involve relationship-related or adult-themed topics based on user input.

7. Your Rights

Since the App does not collect or store personal user data on its servers, there is no stored data to request, access, or delete.
